GEORGE TOWN

FESTIVAL

PENANG • MALAYSIA

1 - 31 AUGUST 2014

FOREWORD

PENANG CHIEF MINISTER

George Town Festival showcases the best of Penang to the world year after year. As in the past, this year's festival programme boasts Asian premieres from some of the leading names in the creative industries, proving that Penang has made its mark as a regional, even global, stage for the arts.

This August, George Town Festival celebrates its fifth anniversary and enters a new phase of its journey. The past four years of music, drama, and creativity have seen the festival build foundations throughout George Town, foundations on which this annual celebration can continue to flourish. You will have the opportunity to witness our soul on fire.

Over the years, the festival has undergone a process of change and maturation. George Town's UNESCO World Heritage Site listing, which served as the catalyst for the festival's inauguration, now has its own festival on July 7. But even as the festival grows, the beating heart of the celebrations remains the city itself and its people. The festival gains its strength from our strong island spirit - the quiet pride and understanding that it is our diverse cultures that make us vibrant, strong, and united, and that our living heritage is woven from many threads.

Each year, the world gets a glimpse of the richness of Penang's creative soul, but it is us Penangites among the crowds this month who are lucky enough to be living on this vibrant canvas. I am honoured to represent a state that produces and nurtures the island's creative groups, individuals, and spaces. Indeed, Penang through George Town Festival embodies and symbolizes the cultural capital of Malaysia.

I offer my heartfelt congratulations to the team behind George Town Festival for the months of hard work, determination and creative inspiration that go towards putting on this festival. And to all visitors to the festival, to Penang, to Malaysia, please accept my best wishes for what I am sure will be an unforgettable stay.

**YANG AMAT BERHORMAT
TUAN LIM GUAN ENG**

FESTIVAL DIRECTOR

As you turn the coming pages, a hundred stories from across the globe fall onto your lap. The ancient comedy theatre of Japan sits next to a drama about 1940s Penang; the traditional Malay boria shares a page with an exhibition of New Zealand Maori carving, and a flashmob dance troupe from Sydney takes to the streets of George Town alongside local artists.

The festival is young, but I feel that the strength that comes from the people and space of George Town itself allows the city to undergo the transformation into an enormous stage, a city-wide gallery and an inspiration for local and international artists each year.

This year has seen some incredible achievements for George Town Festival. One highlight is the festival's selection by the Asia-Europe Foundation (ASEF) as the only Malaysian case study for a publication on good practices in the creative industries, presented to culture ministers from across the globe.

The numbers tell only part of the story of our growth. With over 270 proposals received, more than 100 programmes on show, and well over 20 venues (not including our pop-up kopitiam art spaces!) hosting an array of shows and exhibitions, we can only hope that GTF is going from strength to strength as the years pass.

But the real story of the festival can be found in the people that surround it. The local and international performers who make George Town their stage; the volunteers who give up their time to lend a helping hand; the venue owners who open their doors to us; the dedicated team that live and breathe the festival for most of the year; and you, the audience who come to support and enjoy the shows.

I would once again like to thank YAB Tuan Lim Guan Eng and the State of Penang for their continued support and belief, as well as our partners and sponsors who help to make this festival a reality.

ABOUT THE FESTIVAL

George Town Festival is a month-long festival that has turned into an illustrious platform for the arts in Penang. From its start as a series of arts and culture events in celebration of George Town's listing as a UNESCO Heritage Site in 2008, George Town Festival was mooted and celebrated its first inauguration in 2010.

Since then, we have had the privilege of hosting spectacular events spanning the arts – from world-class performances to cross-cultural creative collaborations, experimental art, traditional and contemporary performing arts, as well as exciting local community initiatives and public installations.

Our mission is to become the platform for culture and the arts in South-East Asia, with a focus on George Town's unique perspectives. For the festival month, the city becomes a canvas where performers and audiences transform spaces within it with venues ranging from auditoriums to five-foot ways, colonial shophouses to sidewalk galleries.

The festival continues to offer the best possible experience through our core beliefs of Collaboration, Community, Reinvention and Accessibility, intriguing audiences with our various free and ticketed events.

George Town Festival 2014 will take place during the entire month of August.

2 Houses is an epic tale of make believe, spun from the imagination of an avid listener of old Penang family fables, myths, stories and research. Truth or lie? Conjecture or fact? The audience disregards these questions as they move, room to room, through the twists and turns of this sparkling drama about two of Penang's elite families. Set against the backdrop of the Second World War and Emergency years, this site-specific drama follows the loves, lives and losses of those that witnessed the birth of Penang's identity.
